

i-Disk Racingnut USB Flash Drive

PRETEC
Small size, Big impact.

Inspired by the racing car industry
Based on environmentally-friendly, reusable material

Store in Style

Pretec i-Disk Racingnut is a USB flash drive featuring a real lugnut design utilizing a special material usually applied in the aeronautic and automotive field called "7075 cold forged aluminum," due to its light weight and endurance for impact. Pretec found it a good idea to use a product destined for the recycling bin and redesigned it to make it usable in a different market segment. Pretec is leading the way to create new environmentally friendly memory devices.

i-Disk Racingnut is able to provide users an extreme, cool image of car racing games yet still is a highly secure data storage device. Apart from the regular model, Pretec also offers you a special metal gift box for gift-giving purpose, where a crystal embellished key chain is included to make it the best of all for you beloved ones.

Features & Specifications :

- A creative combination of USB flash drive & reusable racing nut
